

# University of St Andrews

## Academic Transcript of Andrei-Ioan Bleahu

Date of birth: 23 February 1994

Student number: 230031308

| <u>Year</u>   | <u>Programme and main fields of study</u>       | <u>University of St Andrews</u> |                    | <u>ECTS Module Assessments</u> |               |           |
|---|---|---------------------------------|--------------------|--------------------------------|---------------|-----------|
|   |   | credits<br>possible             | credits<br>counted | credits                        | Grade/Results |           |
| SCQF<br>Level   | Module code and title                           |                                 |                    | gained                         | Attempt 1     | Attempt 2 |
| <b>2023/4</b>   | <u>PGCert Data Science (Online)</u>             |                                 |                    |                                |               |           |
| 11  | CS5914 Machine Learning Algorithms              | 15                              | 15                 | 7.5                            | 18.0P         |           |
| 11  | CS5928 Complex Systems Modelling and Simulation | 15                              | 15                 | 7.5                            | 18.2P         |           |
| 11  | CS5929 Discrete Optimisation                    | 15                              | 15                 | 7.5                            | 20.0P         |           |
| 11  | CS5959 End-to-End Machine Learning              | 15                              | 15                 | 7.5                            | 18.6P         |           |
| <b>Credits for academic session</b>                         |   | 60                              | 60                 | 30                             |               |           |
| <b>2024/5</b>   | <u>Master of Science Data Science (Online)</u>  |                                 |                    |                                |               |           |
| 11  | CS5901 Programming in Python                    | 15                              | 15                 | 7.5                            | 17.7P         |           |
| 11  | CS5938 Numeric Optimisation                     | 15                              | 15                 | 7.5                            | 18.0P         |           |
| 11  | CS5939 Data-Driven Systems                      | 15                              | 0                  | 0                              |               |           |
| 11  | CS5944 Data and Information Visualisation       | 15                              | 15                 | 7.5                            | 16.6P         |           |
| 11  | CS5999 Dissertation in Data Science             | 60                              | 0                  | 0                              |               |           |
| <b>Credits for academic session</b>                         |   | 120                             | 45                 | 22.5                           |               |           |
| <b>2025/6</b>   | <u>Master of Science Data Science (Online)</u>  |                                 |                    |                                |               |           |
| 11  | CS5939 Data-Driven Systems                      | 15                              | 15                 | 7.5                            | 18.3P         |           |
| 11  | CS5999 Dissertation in Data Science             | 60                              | 60                 | 30                             | 18.0P         |           |
| Practical Variational Inference of Bayesian Neural Networks |   |                                 |                    |                                |               |           |
| <b>Credits for academic session</b>                         |   | 75                              | 75                 | 37.5                           |               |           |
| <b>Total Credits Counted on this programme</b>              |   | 255                             | 180                | 90                             |               |           |
| <b>St Andrews GPA (Grade point average)</b>                 |   | 18.1 out of 20.0 possible       |                    |                                |               |           |

Final award of:

**Master of Science in Data Science with Distinction**

Awarded on:

For full grading information please go to <https://www.st-andrews.ac.uk/guides/20-point-common-reporting-scale/>

The University of St Andrews recognises a range of additional achievements and verified activities that complement the academic programme, reflecting exceptional academic performance or scholarly contribution. Further information on the approvals process can be found at <https://www.st-andrews.ac.uk/guides/prizes-awards-medals/>.

### Academic Prizes

#### 2023/4 Deans' List

Awarded to students who average 16.5 or over in their degree

#### 2024/5 Deans' List

# University of St Andrews

Awarded to students who average 16.5 or over in their degree

**2025/6 Deans' List**

Awarded to students who average 16.5 or over in their degree

Name of signatory

**Marie-Noël Earley**

Official Capacity

**Academic Registrar**

Signature

Date Certified

**15 November 2025**
